Silver ANNUAL SUPPORT PARTNERS

Ribbons will be given for 1st, 2nd, and 3rd place in each class and gender category. These will be presented to the winners at the base of the jump hill after jumping on that hill is completed on the night of the competition.

Scoring for alpine skiers will be based on distance only. Their two distances will be combined for their final night's score. Nordic jumpers are scored based on distance as well as style, and their two jumps are likewise combined for their final night's score.

End-of-Series Championship awards will be given for 1st, 2nd, and 3rd place in each class and gender category. Athletes who have jumped three nights on a single hill are eligible for an award. The athlete's score will be the sum of their best three nights' results on a single hill. The ceremony is TBD.

Results will be posted to the SSWSC.org/events/wednesday-night-jump website. Results may also be published in the [Steamboat Pilot & Today](#).

Frequently Asked Questions

Can our parents just drop us off and leave, or do you need their help?

Volunteers are needed to help run the Wednesday Night Jump events. Simply sign onto your SSWSC club account, click the volunteer tab and select Wednesday Night Jump to view the available positions and sign up. By volunteering via your club login, your work deposit hours will be credited to your account. If you are dropping and picking up, please abide by the age class times as coaches are on the hill and not available for supervision outside of age class jumping times.

I'm 11, which makes me a U12, on the HS30 hill but I'm new to the program this year. Can I jump the HS20 instead and still compete?

Yes, there are a number of kids just like you, so we've created two special, unofficial-so-to-speak classes so that you can still compete for awards. Your coach will let the registrar know this and you'll be placed in the HS20 open class. An inexperienced U14 could likewise ask to be moved down to the HS30 open.

I'm a 9-year-old U10, which puts me on the HS20 hill, but I've been doing this a while and I'd rather compete on the HS30. Can I do that?

During this season, you must compete on the designated hill for your age class. While it is possible to jump down on a smaller hill, it is not possible to jump up on a larger hill.

Can I jump two different hills on the same night within my age class? If I'm a U12, can I jump first on the HS20 in the open class and then jump on the HS30 with my teammates?

No. You must choose one hill to stay on for the night. Your two jumps' scores on that one hill will be totaled for your final night's score.

Can I jump different hills on different nights within my age class? If I start out in the HS20 open class until I got the hang of things can I then move up to the HS30 with the other 10 and 11 year-olds?

Yes, but to be a contender for the end-of-series championship you will need to have jumped on the same hill 3 out of the 4 competitions because the championships are based on an accumulation of points on the same hill.
